

Keep Australia Beautiful

Learning about litter

Professional development for teachers and principals

Date: Tuesday 17th February 2009
Time: 1 – 4 pm
Venue: Henderson Environmental Centre, Stirling

Planning your school environmental strategies for 2009?
Come and learn some fun ways to incorporate litter learning in your class and school.

Topics covered include:

- laws relating to litter
- social impact
- hazards of litter
- effect of litter on the environment
- stormwater and marine litter
- the problem with landfill
- packaging
- the 3 Rs
- littering behaviour

There will be guest speakers and numerous resources for you to take back to your school. Primary teachers will receive a copy of our new curriculum resource but there is plenty for secondary too. All participating schools will be refunded payment for half a day of teacher relief.

An opportunity will also be presented for schools to obtain some funding towards implementing litter prevention strategies in their school.

To **reserve your place** or for further information please contact:
